International Politics

Khotkova E. S. Evolution of Relations between the USA and Countries of Central and Eastern Europe

After evaluating changes in realities, the USA is making corrections to their principles of interaction with the countries of Central and Eastern Europe since previous specific allied connections with them (sometimes to the prejudice of the relationship with Western Europe) contradict the declared objectives of B. Obama's administration to make the transatlantic community more solid and reset relationships with Russia 9

Kokarev K. A. On Some Special Features of Domestic Policy in China under the Global Financial and Economic Crisis

PRC's current domestic policy is to a great extent determined by government's actions directed towards localization of negative effects of crisis and creating the basis for further economic development and making its international position stronger. The results of these measures even in a short period of time make it possible to evaluate some progress and problems of PRC 25
